**Re: The NATIONAL Health Promotion Policy and Strategy**

The National Department of Health developed the National Health Promotion policy and strategy as a framework to guide the implementation of health promotion programmes in South Africa.

The above mentioned policy and strategy is applicable to the Northern Cape Department of Health and should be implemented. This document can be accessed through the website of the National Department of Health at [www.doh.gov.za](http://www.doh.gov.za).

I hope you find this in order

Regards,

**Ms G.E. Matlaopane  
Head of Department: Health**
